

## Desktop Publishing & Digital Design Certification

The **UA Desktop Publishing and Digital Design Certification Program** teaches you how to use the latest desktop publishing and digital design software. Students receive hands-on instruction and are encouraged to incorporate real-world projects to maximize their training.

Sign up for a single course, or complete our Desktop Publishing & Digital Design Certification Track. Sign up for all eight courses in the Certification Track and receive our **\*One-Rate Tuition Discount**, 15% off the total tuition cost! Tuition includes textbooks, class materials, free covered parking, and the opportunity to audit the **exact** same class (same title, same software version) at no charge for one year, based on availability.

### Desktop Publishing & Digital Design Certification

UA Code	Hours	Course Title	Tuition
ILLUST1	6	Adobe Illustrator CS3 Level 1	\$299

## Desktop Publishing & Digital Design Certification

### Course Descriptions

**Adobe Illustrator** gives you new creative freedom to realize your ideas quickly and powerfully. Instantly convert bitmaps to vector artwork, learn to paint more intuitively, and save time with intelligent palettes and optimized workspaces. Tight integration with other software allows you to produce extraordinary graphics for print, video, the Web, and mobile devices.

**Adobe Photoshop**, the professional image-editing standard and leader of the Photoshop digital imaging line, delivers outstanding production capacity. Groundbreaking creative tools help you achieve extraordinary results, and unprecedented adaptability lets you custom-fit Photoshop to the way you work. With more efficient editing, processing, and file handling, there's no slowing you down.

**Adobe InDesign** is tightly integrated with the Adobe applications used most often. InDesign delivers faster production workflows and a more fluid and creative environment for designing professional layouts with sophisticated graphics and typography.

**Putting It All Together (Portfolio)** gives students a chance to put newly-learned design concepts into immediate practice. Students are not only taught how to look at the elements of design, but also how to explore the production end of desktop publishing. Students will learn to organize and prepare files to send for professional printing on a press, and also how to export PDF files.

#### General Information:

**Location:** West side of The University of Arizona campus in the University Services Building, 888 N. Euclid Ave., third floor

**Tuition:** Includes textbooks, class materials, free covered parking, and the opportunity to audit the **exact** same class (same title) at no charge for one year.
