## Microsoft Certifications for IT Professionals

Earn the Microsoft Certified IT Professional (MCITP) credential so you can highlight your field of expertise. Now you can distinguish yourself as an IT professional with the current skills and proven job-role capabilities to work effectively with a comprehensive set of Microsoft technologies. UA Outreach College/Professional Development is offering the following new MCITP Certification courses:

- MCITP: Server Administrator
- MCITP: Enterprise Administrator

## Microsoft Certifications for IT Professionals

**MCITP: Server Administrators** are recognized among their peers and managers as leaders in the daily operational management of Windows Server 2008. Demonstrate and communicate your ability to administer Windows Server 2008 systems and increase your organization's return on technology investment by earning the MCITP: Server Administrator certification.

**MCITP: Enterprise Administrator** certification demonstrates your skills in Windows infrastructure design and your readiness to excel in working with Windows Server 2008. Enterprise administrators are recognized among their peers and managers as leaders in Windows infrastructure design. Make sure your expertise in Windows Server 2008 stands out. Earn the MCITP: Enterprise Administrator certification, which distinguishes you as an IT professional committed to excellence in working with Windows Server 2008. To earn this certification, you must pass five exams: four Microsoft Certified Technology Specialist (MCTS) prerequisite exams and one Professional Series exam.
