

DESIGN01: Putting It All Together (Practicum)

8.7.07

Course Title: DESIGN01: Putting It All Together (Practicum)

Course Length: Self-paced

Instructional Methodology: Instructor-led

In order to complete the Desktop Publishing Certification program, each student must complete the required coursework and the practicum.

Required Coursework:

- Illustrator Level 1
- Illustrator Level 2
- Photoshop Level 1
- Photoshop Level 2
- InDesign Level 1
- InDesign Level 2

Each Level 1 class is a prerequisite for the Level 2 class of the same topic.

Software program classes do NOT have to be completed in the order listed above.

(For example, a student may take Photoshop 1 and 2 first, then Illustrator 1, then InDesign 1 and 2, and finally Illustrator 2.)

Note: QuarkXPress classes are offered to groups as needed. QuarkXPress Level 1 and 2 would replace InDesign Level 1 and 2 to fulfill the same requirement.

Practicum: Each student will create an individual time line. This is a self-paced practicum. The student will notify the advisor at *GraphicDesignNow@aol.com* of his or her time line, ask questions, or recommend modifications to the suggested portfolio projects.

Suggested Portfolio Projects:

- A. One-page flier
- B. Four-page newsletter
- C. Three-panel brochure

Finished portfolio projects will be emailed to the advisor for evaluation and approval.

Upon completion of required coursework and approval of practicum, the student will receive the Desktop Publishing & Digital Design Certificate.
