

# ILLUST2: Adobe Illustrator Level 2

4.1.07

**Course Title:** ILLUST2: Adobe Illustrator Level 2

**Course Length:** 1 day

**Instructional Methodology:** Instructor-led, computer lab with hands-on exercises

**Course Description:** You may have used Illustrator in the past to create simple illustrations and logos, but now you'd like to master more complex illustrations. By exploring Live Trace and Live Paint, users are able to convert from raster to vector graphics, which can easily be colorized or enhanced. Other Adobe Illustrator tools and special effects are also introduced, allowing numerous options for design creativity and flexibility.

**Course Objectives:**

- Convert raster graphics to vector graphics and colorize artwork using the Live Paint feature.
- Add color enhancement with blends and gradients.
- Learn to use symbols to save file space and work efficiently.
- Use four types of brushes.
- Make special effects with lighting.

## Course Outline

**Color and Painting**

- Live Trace and Live Paint
- Appearance Palette
- Editing Live Paint Regions
- Custom Colors and Patterns

**Blending Shapes and Colors**

- Gradient and Blend Tools
- Smooth Color and Intermediate Step Blending

**Working with Symbols**

- Creating Symbols and Instances
- Symbolism Tools
- Editing and Updating Symbols

**Brushes and Scribbles**

- Art, Scatter, Calligraphic, and Pattern Brushes
- Brush Options and Colorization
- Creating a Pattern Brush from Swatches
- Scribble Effects on Shapes and Type

**Using the 3D Effect**

- Warp Effect
- Artwork into Symbols
- Lighting and 3D Rotate Effects
