

PHTSHOP3: Adobe Photoshop Level 3

07.29.08

Course Title: PHTSHOP3: Adobe Photoshop Level 3

Course Length: 1 day

Instructional Methodology: Instructor-led, computer lab with hands-on activities

Course Description: In this course, students learn advanced layering and compositing as well as how to prepare files for the Web. Students learn how to hand-color selections on a layer, as well as how to save an image as a separation. When you've completed all three levels of Photoshop, you'll have a firm grasp on Photoshop concepts applicable to almost every facet of the program.

Course Outline

Advanced Layering
